Buckeye Glass Works.—A meeting of the stockholders of this concern was held at the office of Robert Bonham, Esq., yesterday afternoon, the object being the adjustment of the financial difficulties of the company. Meeting one of the stockholders after the consultation, we inquired if anything definite had been arrived at. His reply was, "That nothing was done toward a settlement of affairs. We held a desultory conversation, and then agreed to adjourn until Saturday afternoon next." It was afterwards learned that the sum of sixteen thousand dollars had been subscribed to the new stock and that four thousand additional was only required to consummate the plan by which operations would be resumed at the works. It was thought that the necessary amount would be subscribed by Saturday.

The Call For A Temperance Convention.—

A number of the ministers of this Congressional district have issued the following call. Among the signatures we notice that of Dr. A. C. George. The ministers of this skip, or a number of them, join in asking a full attendance from this part of the Skate.

"The undersigned, ministers of the gospel, after consultation, respectfully invited our breitren in the ministery and other friends of total abstinence, in the first Convention of the besieged to hold out until thelast "yaller dog" was eater; but later in a heavily leaded posteript editorial, easy, "the garrison has capitulated asy, "the garrison has capitulat

THE WALNUT GROYE CAMP MEETING.—
The Walnut Groye camp; meeting was largely attended last Sunday, morning and afternoon, and the attendance would have been still larger at night but for the rain which came on about three o'clock. The morning sermon was preached, by Rev. Latshaw McGuire, of Pittsburgh, and received the earnest attention of at least two thousand people. It was arranged for Rev. T. B. Hughes to preach at three in the afternoon, but the rain dispersed the people, and as it continued to a late hour there was no public service until 7:30 o'clock, at which hour Rev. McGuire again preached, taking for a text the words of Jesus, "Come unto me all ye that are weary and heavy laden, and I will give you rest." The discourse was very effective.

Yesterday there was the usual experience meeting, and preaching at 10:30 o'clock P. M. by Dr. DeHass. The meeting will continue over next Sunday. A Naw Lecture.—We clip from the State Journal the following announcement of a new lecture to be delivered in Parkersburg by Dr. A. C. George, formerly pastor of the Fourth Street Methodist. Episcopal Church in this city:

"Rev. Dr. George will deliver a lecture next Sunday night, in the Baptist Church, on "Afghanistan and the Afghans." This country and race have been brought lately into great prominence by the war which they are prosecuting with Great Britain. We need to know more of the character, history and home of the Afghans to comprehend the foreign news. Dr. George has made this whole subject a thorough study, and his lecture will, nod doubt, be interesting and profitable, to all who hear. DR. J. M. Topp has a copy of the Vicksburg (Miss.) Citizen, dated July 3, 1863, framed and hung up in the postoffice at Bridgeport. The paper teems with rebel utterances, among which we noticed in one corner defiances to the Yankees under Gen. U.S. Grant, who at that time were besieging Vicksburg, and asserting the intention of the besieged to hold out until thelast "yaller dog" was eaten; but later, in a heavily leaded postscript editorial, says, "the garrison has capitulated and Grant will eat his Fourth of July dinner in this town." The Doctor prizes this paper highly and regards it as one of his treasures.

Bache is a nailleeder at the Top Mill, and is spoken of in the highest terms by all who know him, although he drinks to excess cometimes.

The case is certainly a strange one, and opinion is divided upon it, some thinking the story true, while others ridicule it, but the positive assurances of the girl and her parents, that the story is a farce, go far to prove Bache innocent, and his previous good character will strengthen this theory.

It is well known that hot weather brings sickness and that the greatest It is well known that bot weather brings sickness and that the greatest care is necessary to prevent disorders even on the part of those most healthy. What there is in the heat that should cause disease cannot certainly be known, but cholers, dysentery, debility, lassitude, vertigo and many other sudden and dangerous maladies come every season and cause great suffering and thousands of deaths. Few people go through the Summer without unpleasant symptoms. The month becomes dry and parched, the tongue furred with white, the palse irregular, the head feverish, the body cramped and limbs scaller and the scallers. and limbs swollen and tired Ladies especially, with their natural delicacy and tendency to female troubles, find the hot weather almost unbearable, while little Children are dying every day from exhaustion and because Parents neglect precaution and care. A prominent and well known physician of New York asserts as his positive belief that more than three-sourths of all so-called Summer complaints arise from disordered secretions, and that these secretionary organs, which, by being out of order cause so much trouble, are the kidneys and liver. The brain controls the life, but the lower part of the body rules the health.

There is one, and only one known vegetable that will absolutely regulate and control the Kidneys and Liver at all times and thus prevent the many dangers of the Summer. That vegetable (a West India leaf.) is used as the basis of Warner's Safe Kidney and Liver Cure. It is pure, pleasant to the taste and absolutely certain in its results. It keeps those who intelligently use it in perfect health, and cures those whose secretions are deranged. For all uniary complaints of either sex it is infallible. For all bilious troubles it is certain. For the hot season it is invaluable and every person of care and intelligence should not fail to keep Warner's dafe Kidney and Liver Cure near at hand, and use it upon the approach of the slightest symptoms.

It may save your life or that of some dear friend; it will certainly prevent much suffering. It is for sale by druggists in all parts of the world; be careful and take no other. "A word to the wise is sufficient."
